Environmental Remediation and Construction Company

SCE Environmental Group is a multidiscipline environmental contracting firm dedicated to providing practical and cost-effective solutions to clients nationwide.

Qualified Professionals:

- ◆ Experienced construction managers and superintendents
- ◆ Heavy equipment operators
- ◆ HAZMAT technicians
- ◆ T&D specialists
- ◆ Lead Abatement specialists
- ◆ Health & Safety specialists
- ◆ MOLD specialists
- ◆ Professional Geologists (PG)

Our company has a dual mission: to preserve and protect the environment by helping clients make positive, lasting and substantial improvements in their environmental management practices in the most economically sound way and to build SCE as a great institution -- one that attracts, develops, motivates and retains exceptional people.

Insurance:

SCE maintains a comprehensive and cost effective insurance program inclusive of contractor's pollution liability insurance and Mold contractor's insurance.

remediation

stabilization

decontamination
